Course Evaluation

To improve our programme and find out what supports are most needed we will be asking students to complete a short survey at the end of the programme. The survey will ask students for their feedback on what they liked (or didn't like) about the programme and what supports would help in the future. This evaluation will be completely anonymous (no names or identifying information will be used) and participation is voluntary.

I have read and understood the above information. I wish to enrol for the Free Tuition Project 2023. (Please mark with X)
